

The Americans with Disabilities Act Participation Action Research Consortium (ADA-PARC): Tracking Participation Disparities and Promising Practices post ADA

> Presentation by Lewis Kraus and Jacqueline Kish APRIL, 2018

Funding

 ADA-PARC is funded by the National Institute for Disability, Independent Living, and Rehabilitation Research (NIDILRR) under grants 90DP0026 and 90DPAD0001.

ADA Participation Action Research Consortium

Purpose of ADA-PARC

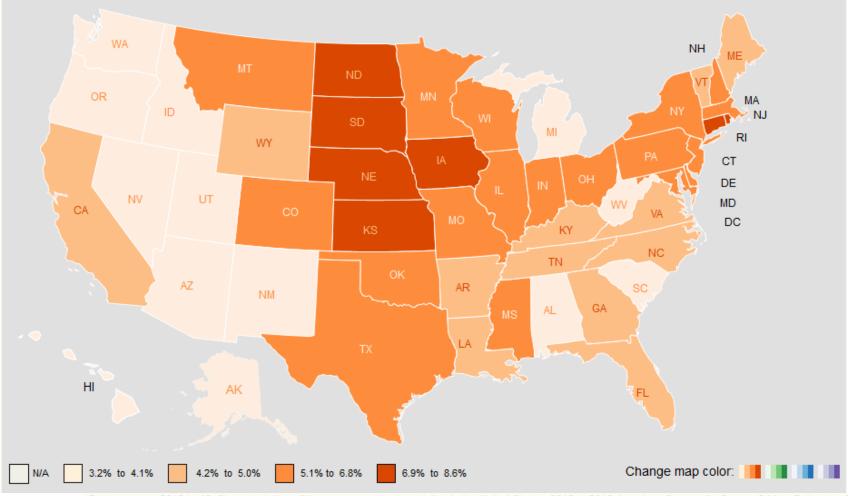

- To collaboratively examine participation disparities experienced by people with disabilities post ADA & Olmstead
- To identify & examine key environmental factors contributing to these disparities
- To benchmark participation disparities and highlight promising practices at state & city levels
- To action-plan strategies for dissemination and utilization of findings to be used by ADA Centers and others in community capacity building & systems change initiatives

Tracking 3 ADA Participation Areas (see details at: <u>adaparc.org</u>)

- Community living (CL)
 Community vs. institution living, HCBS spending, Money Follows the Person Transitions
- Community participation (CP) Health insurance, affordable & accessible housing, access to community & disability resources, transportation, crime rates, livability indicators
- Work/economic participation (WE)
 Employment, economic status, poverty rates, cost of
 living

Community Living

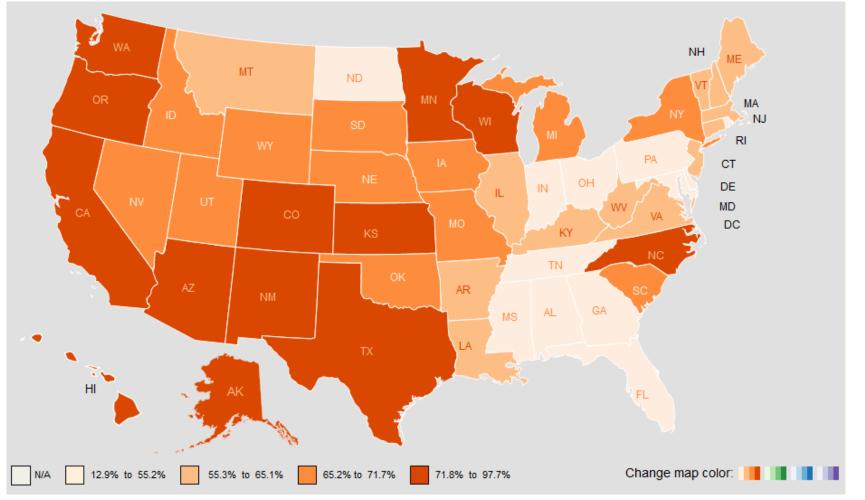

Percentage of People with Disabilities Living in an Institution, 2016

Data source. 2012 to 16, Characteristics of the group quarters population in the United States, 2012 to 2016 American Community Survey 5-Year Estimates.

Ratio of HCBS Expenditures to Total LTSS, 2015

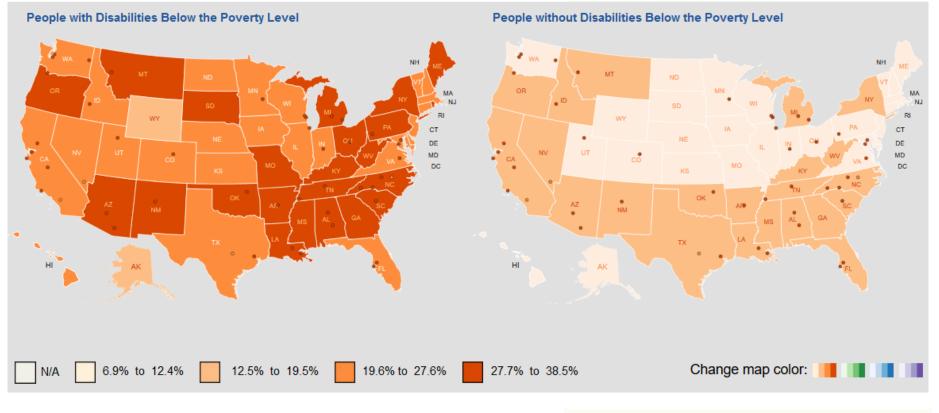

Data source. 2015, Medicaid Expenditures for Long-Term Services and Supports (LTSS) in FY 2015 from Eiken et al. 2017.

Work and Economics

Percentage of People with and without Disabilities Below the Poverty Level, Age 18 to 64, 2012 to 2016

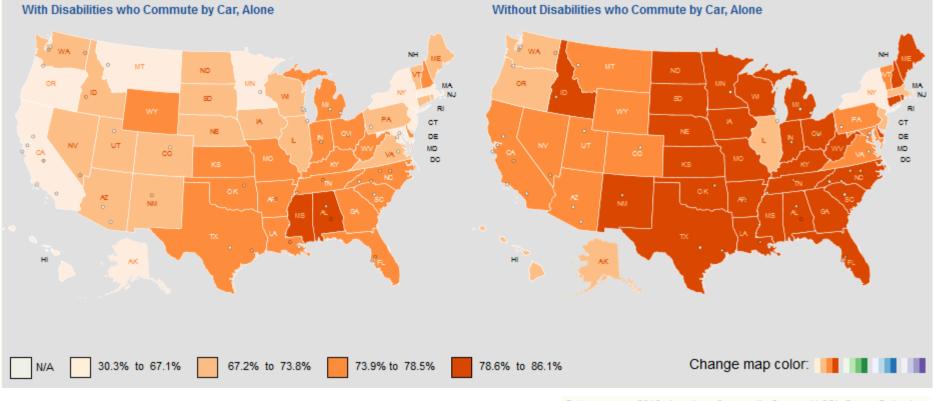

Data source. 2016, American Community Survey (ACS), 5 year Estimates.

Community Participation

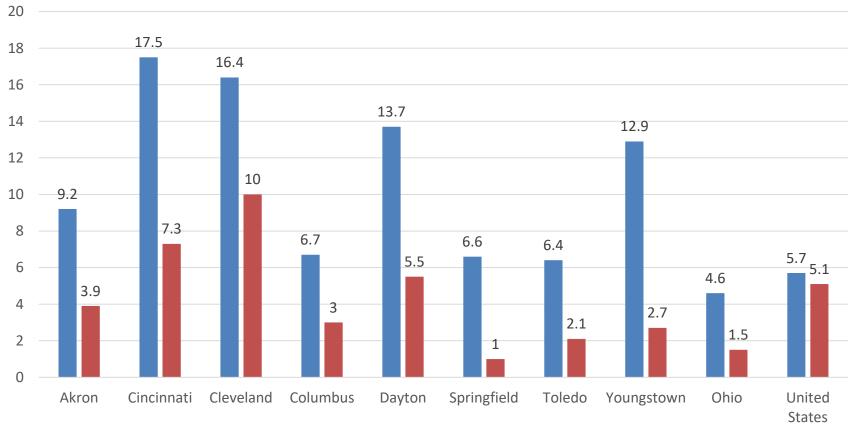

Percentage of People with and without Disabilities who Commute by Car, Alone, 2016

Data source. 2016, American Community Survey (ACS), 5 year Estimates.

Ohio: Percent People with and without Disabilities that Commute to Work by Public Transit, 2016

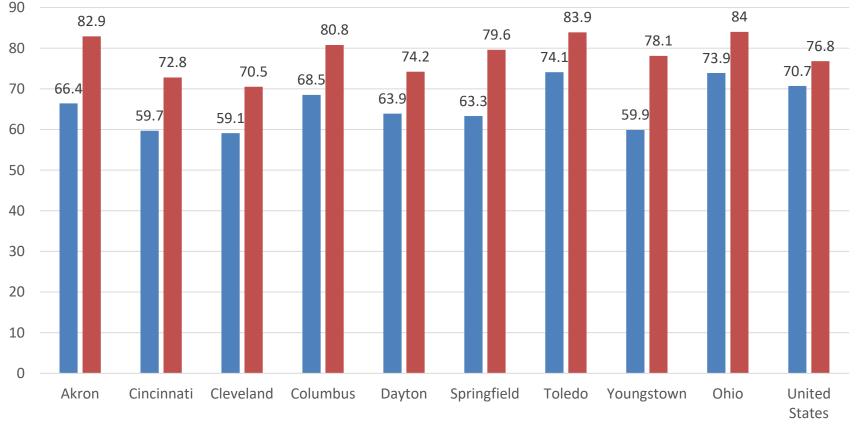

■ % PWD ■ % PWOD

*No data for Athens, Chillicothe, Zanesville Data Source: US Census, ACS 5-year, 2016

Ohio: Percent People with and without Disabilities that Commute to Work by Car, 2016

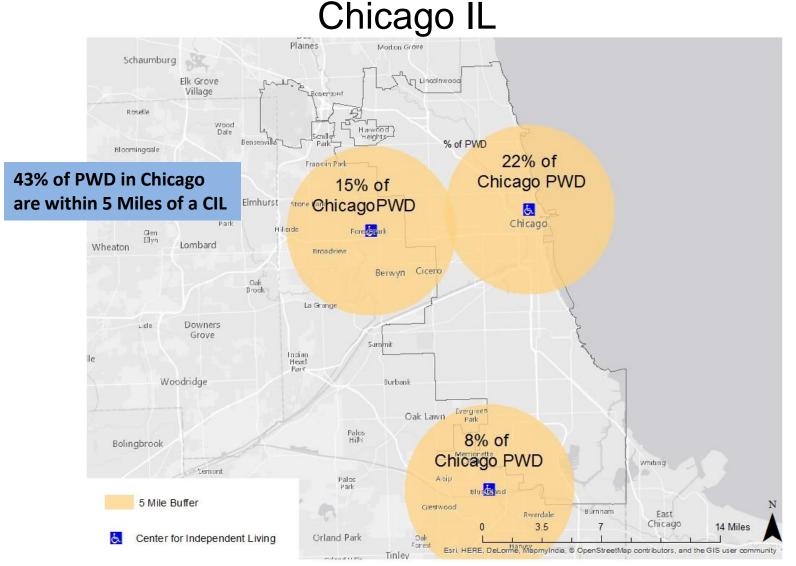

■ % PWD ■ % PWOD

*No data for Athens, Chillicothe, Zanesville Data Source: US Census, ACS 5-year, 2016

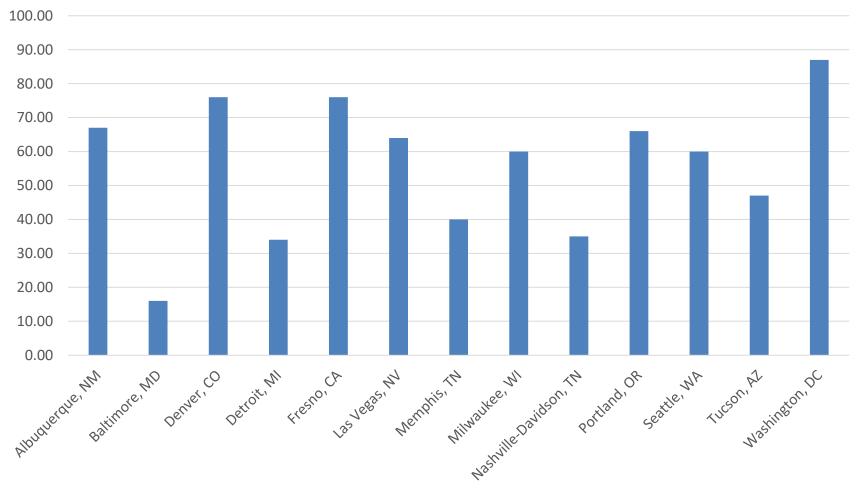

Proximity to Community Resources: Centers for Independent Living Access

Data Source: US Census, ACS 5-year, 2013; ARC GIS CIL shapefile

Percentage of PWD Living within 5 miles of CIL, 2013

Data Source: US Census, ACS 5-year, 2013; ARC GIS CIL shapefile

Data: WalkScore, ACS, USDA, 2008-2016

Scorecards of Community Participation Resource Availability

- Heatmaps show a score on a scale of 0 (worst) to 100 (best) to compare states or cities on any indicator
 - Proximity to resources
 - CIL access
 - Healthy food access
 - Transportation access
- Composite score is a summary across many Community Participation indicators
 - Disparities
 - Promising Practices/Opportunities

Where are we headed?

- Immediate access web engine for mapping 3 areas of participation by nation, state and city
 - GIS maps & accessible tables
 - Summary scorecards
 - City level action planning tools
 - Transportation access & accessibility atlas
 - Affordable, integrated and accessible housing atlas
 - ADA Center Action Toolkits with resources on rights, resources and promising practice cases
- Community town halls to prioritize disability community priorities & participatory voting for action & KT impact
- SDH research on intersecting disparities by age, race/ethnicity, gender, economic status & type of disability

ADA-PARC is seeking feedback to help steer the next phase of this research project:

- How could you use this information to take action to advocate for improved inclusion of people with disabilities in your community?
- What questions or concerns do you have related to the ADA-PARC project?

Acknowledgments

- Thank you to all of our ADA-PARC consortium collaborators and participants
